ABOUT ME

I love creating functional web products that are user-centered with rock-solid code. And I'm conscientious, fast-learner-I round out my technical skills with a unique professional background in information science. That means I understand the bigger picture, too – how design, UX, and code work together to create unique web experiences.

RECENT PROJECTS

2018 **Denton Area Running Club Concept and Redesign**
-Co-developed a vibrant, secure website for this vibrant and community-driven running club from style concepts to end-product. Project is ongoing.

2018 **Knob Hills Trail Race Concept and Redesign**
Developed a website for annual trail race hosted by Denton Area Running Club that includes an integrated calendar and a minimal one-page design.
