Kristi Taylor

903-714-0221 – Denton, Texas 76210 – kristi.a.taylor@me.com

I love creating functional web products that are user-centered with rock-solid code. And I'm conscientious fast-learner-I complement my technical skills with my unique professional background in information science. That means I understand the bigger picture, too – how design, UX, and code work together to create unique web experiences. Check out my portfolio- https://taylorkristi.github.io/

Technical skills

PROGRAMMING LANGUAGES: JavaScript, HTML5/CSS3, and Python

FRAMEWORKS: Bootstrap

SOFTWARE & TOOLS- Illustrator, Photoshop, Wordpress, Git/Github, & Sublime 3

Projects

Knob Hills Trail Race -https://github.com/taylorkristi/knobhills   May 2018
- Developed a website from scratch for annual trail race hosted by Denton Area Running Club that includes a responsive multi-page design with an integrated ecommerce page.
- Technologies Used: HTML5/CSS3, Bootstrap, and JavaScript

Denton Area Running Club –https://taylorkristi.github.io/concept-darc.github.io   August 2018
- Created branding concept and framework for responsive multi-page website for local running club.
- Technologies Used: HTML5/CSS3, Bootstrap, and JavaScript

Memory Game-https://taylorkristi.github.io/memory-game/   April 2018
- Produced an interactive classic game with JavaScript as a part of the Front End Developer Nanodegree Program with Udacity

Work experience

Lewisville ISD, Librarian, Flower Mound, Texas   August 2014 - Present

- Created welcoming library for students and staff.

- Implemented STEAM programming into library curriculum and programming.

- Taught coding (Python and Scratch) to code clubs on a weekly basis to 10-15 middle school students.

- Presented annually about STEAM and makerspaces at Texas Library Association Conference.

Plano ISD, 7th grade English Teacher, Plano, Texas   August 2013 - August 2014

- Integrated technology into daily lessons and quickly became tech-ed leader on campus.
